Devices

Type of computer devices

A stylized blue brain is centered in the image, rendered with a semi-transparent, glowing effect. Overlaid on the brain is a complex wireframe structure of white lines and dots, resembling a neural network or a digital brain model. The background is solid black, which makes the blue brain and white wireframe stand out prominently.

2. Output devices
3. Processing device
4. Storage devices

1. Input devices

In the computer devices, an input device is a part of computer hardware device that is used to provide data and control signals to an information processing system such as a computer or information equipment. कंप्यूटर उपकरणों में, एक इनपुट डिवाइस कंप्यूटर हार्डवेयर डिवाइस का एक हिस्सा है जिसका उपयोग सूचना प्रसंस्करण प्रणाली जैसे कंप्यूटर या सूचना उपकरण को डेटा और नियंत्रण संकेत प्रदान करने के लिए किया जाता है।

Biometric Devices

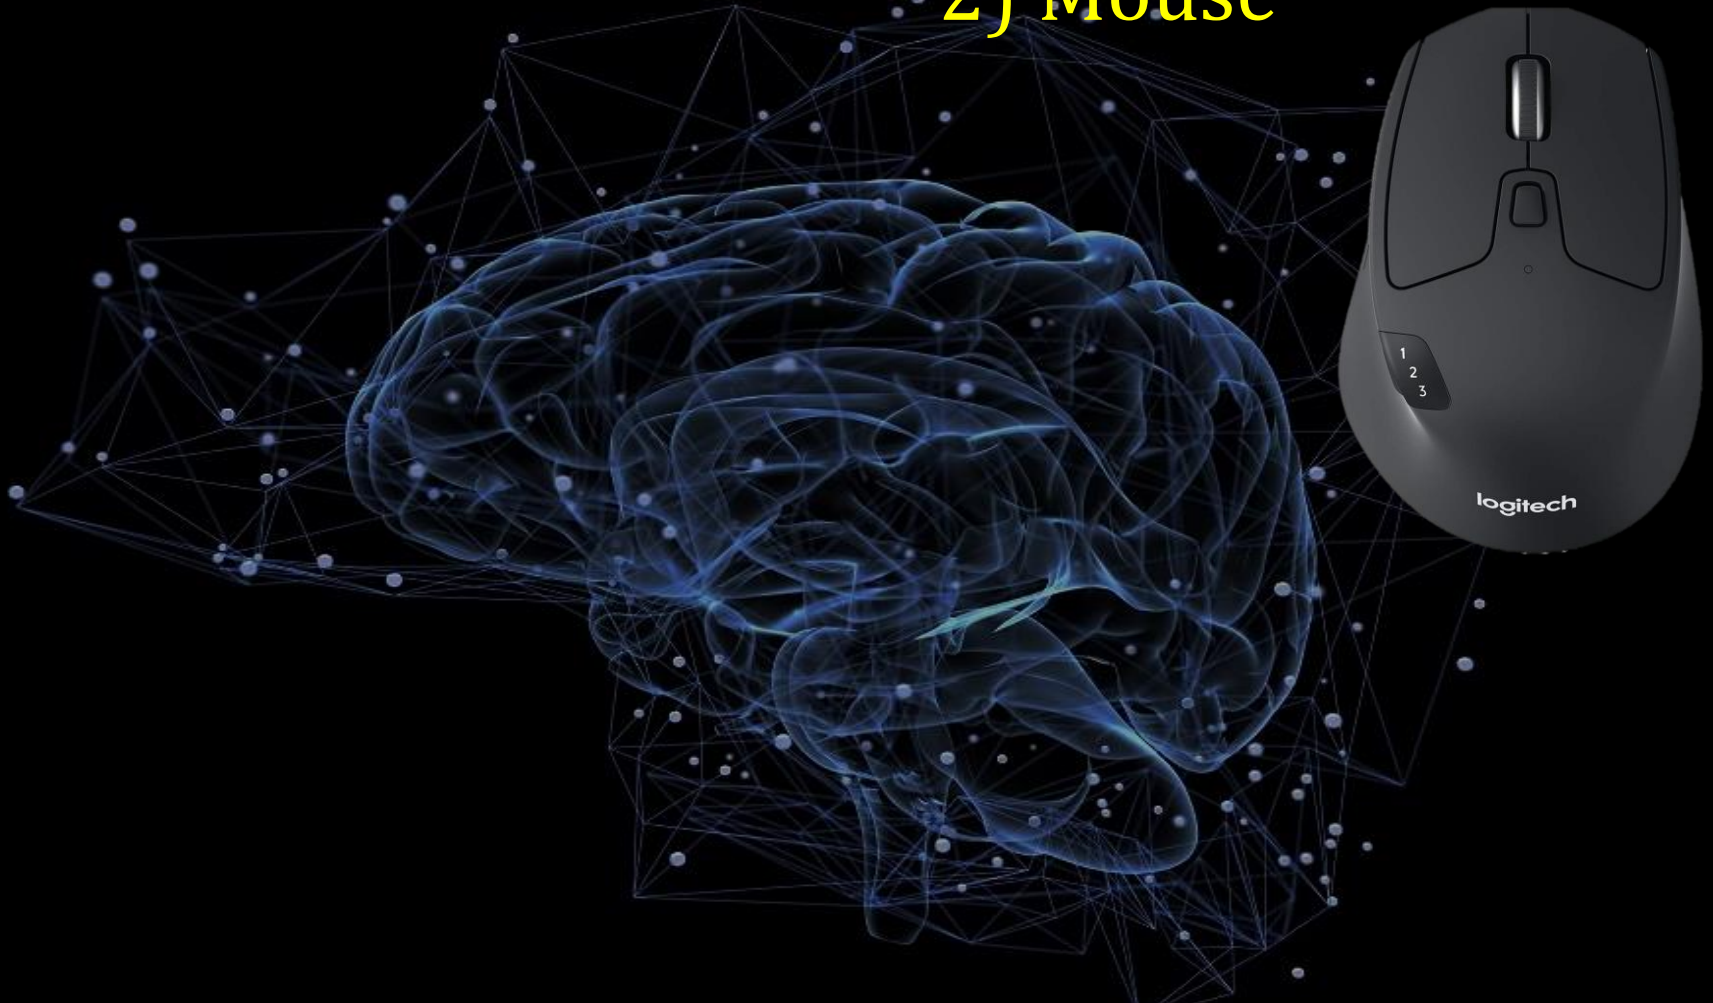

1) Keyboard

The keyboard is a basic input device that is used to enter data into a computer or any other electronic device by pressing keys

कीबोर्ड एक बुनियादी इनपुट डिवाइस है जिसका उपयोग कंप्यूटर या किसी अन्य इलेक्ट्रॉनिक डिवाइस में कुंजियों को दबाकर डेटा दर्ज करने के लिए किया जाता है

2) Mouse

2) Mouse

The mouse is a hand-held input device which is used to move cursor or pointer across the screen.

It is designed to be used on a flat surface and generally has left and right button and a scroll wheel between them.

माउस एक हैंड हेल्ड इनपुट डिवाइस है जिसका उपयोग स्क्रीन पर कर्सर या पॉइंटर को ले जाने के लिए किया जाता है। यह एक सपाट सतह पर उपयोग करने के लिए डिज़ाइन किया गया है और आम तौर पर बाएँ और दाएँ बटन और बीच में एक स्कॉल व्हील होता है।

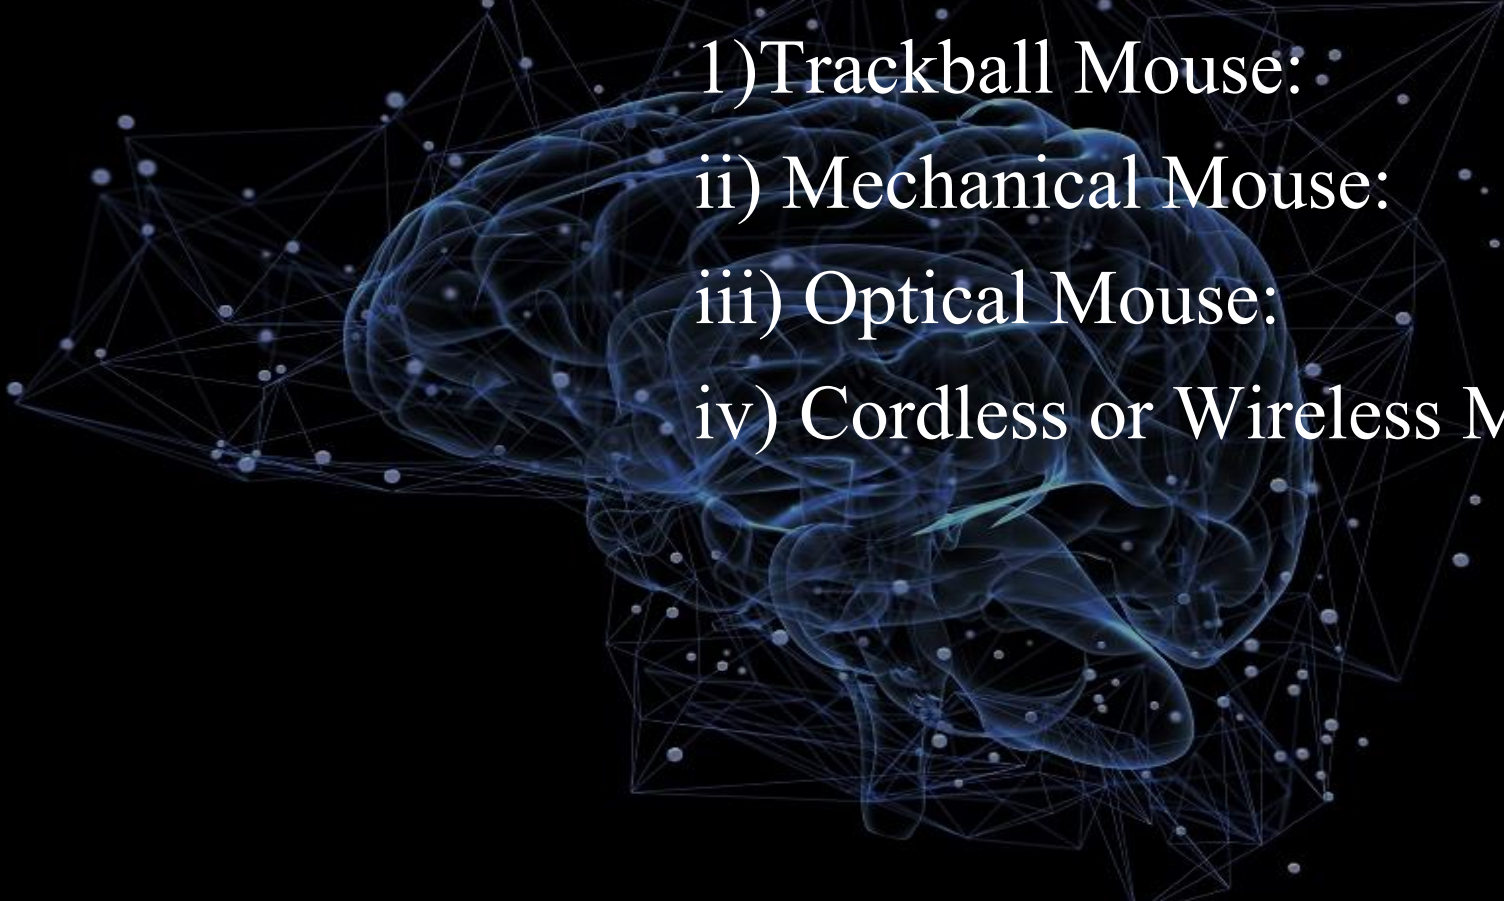

Common types of the mouse:

1) Trackball Mouse:

ii) Mechanical Mouse:

iii) Optical Mouse:

iv) Cordless or Wireless Mouse:

Common types of the mouse:

1) Trackball Mouse:

It is a stationary input device that has ball mechanism to move the pointer or cursor on the screen.

यह एक स्थिर इनपुट डिवाइस है जिसमें स्क्रीन पर पॉइंटर या कर्सर को स्थानांतरित करने के लिए बॉल मैकेनिज्म होता है।

Common types of the mouse:

ii) Mechanical Mouse:

It has a system of a ball and several rollers to track its movement. It is a corded type of mouse. A mechanical mouse can be used for high performance, इसकी गति को ट्रैक करने के लिए इसमें एक गेंद और कई रोलर्स की व्यवस्था है। यह एक कॉर्डेड प्रकार का माउस है। उच्च प्रदर्शन के लिए एक यांत्रिक माउस का उपयोग किया जा सकता है

Common types of the mouse:

iii) Optical Mouse:

An optical mouse uses optical electronics to track its movement. It is more reliable than a mechanical mouse and also requires less maintenance., एक ऑप्टिकल माउस अपने मूवमेंट को ट्रैक करने के लिए ऑप्टिकल इलेक्ट्रॉनिक्स का उपयोग करता है। यह एक यांत्रिक माउस की तुलना में अधिक विश्वसनीय है और इसके रखरखाव की भी कम आवश्यकता होती है।

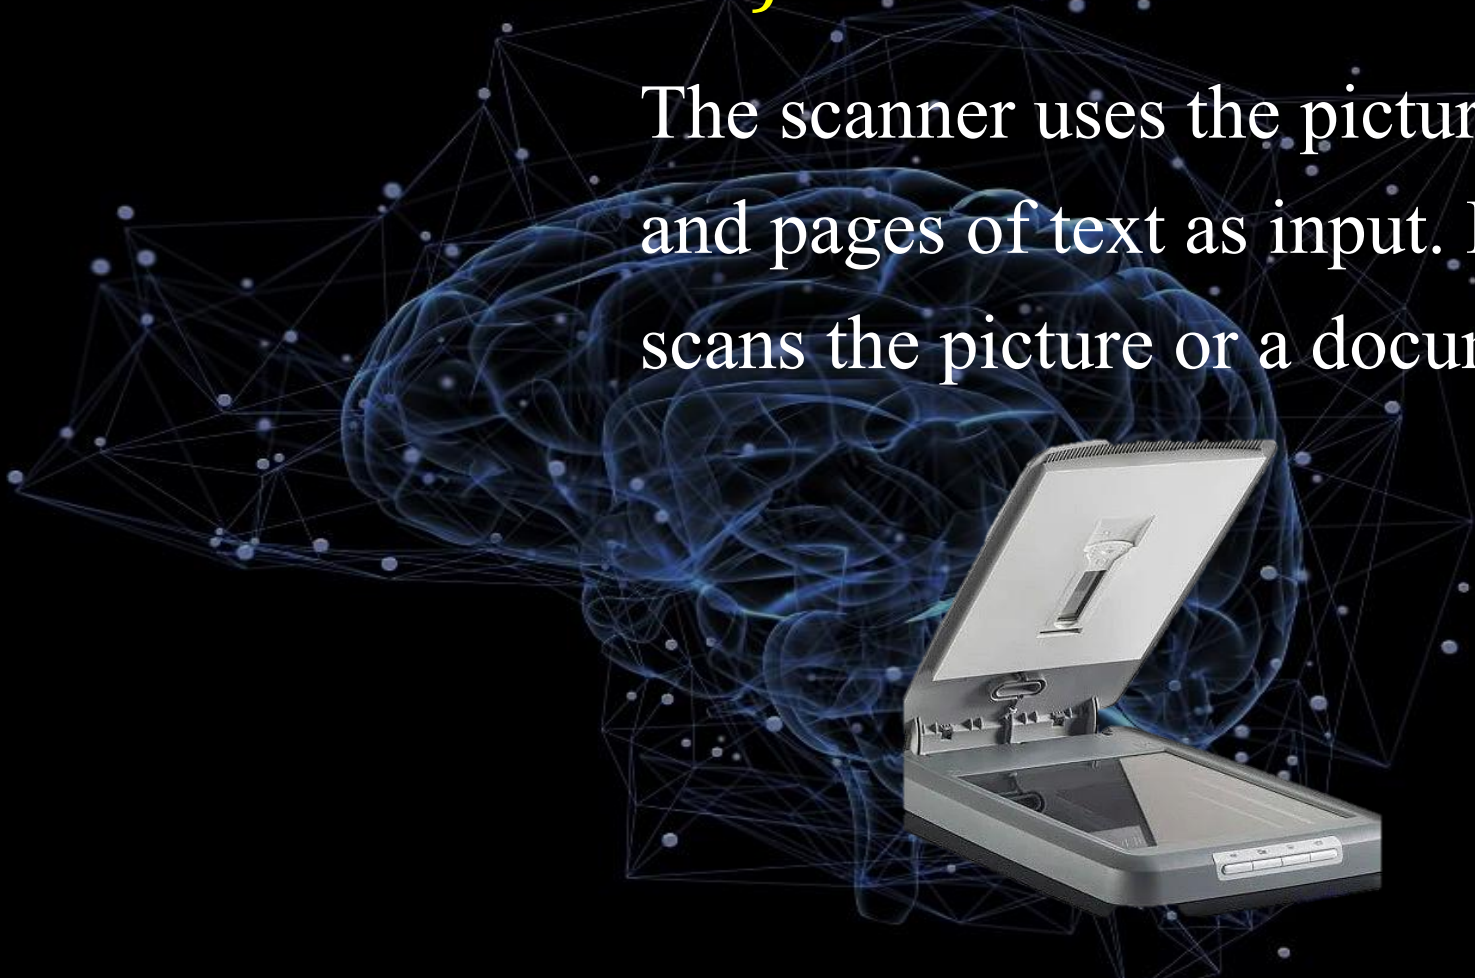

Common types of the mouse:

iv) Cordless or Wireless Mouse:

3) Scanner

The scanner uses the pictures and pages of text as input. It scans the picture or a document.

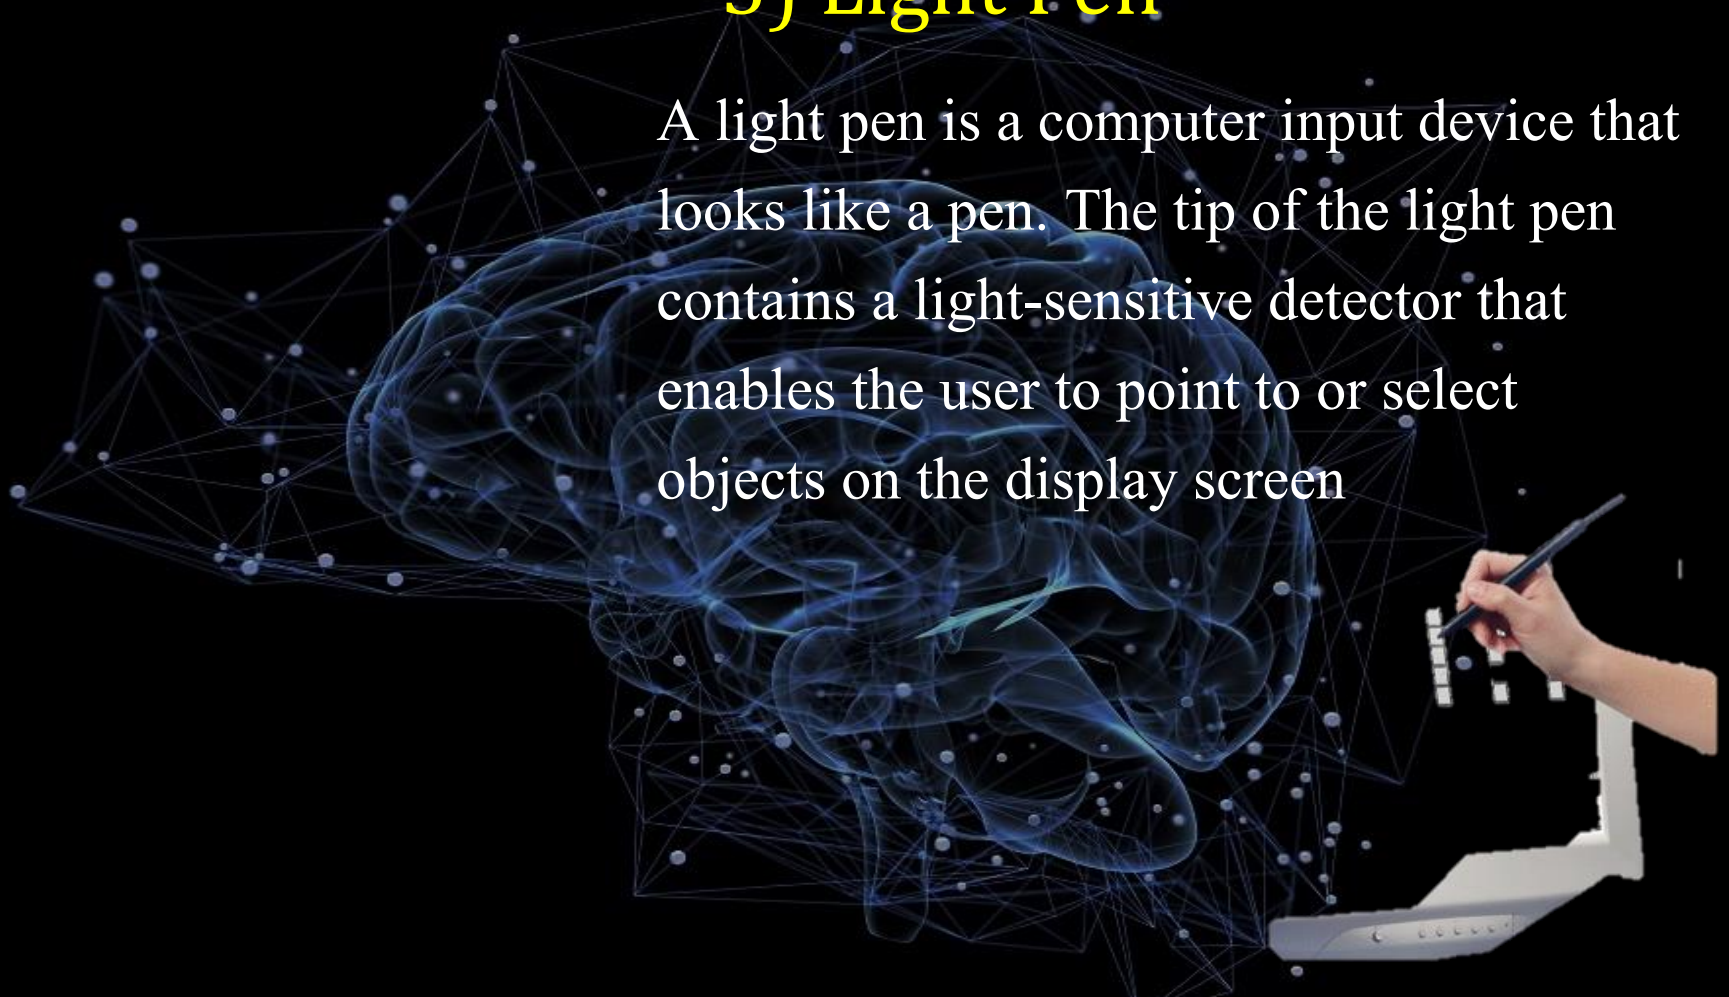

4) Joystick

A joystick is also a pointing input device like a mouse. It is made up of a stick with a spherical base. जॉयस्टिक भी माउस की तरह एक पॉइंटिंग इनपुट डिवाइस है। यह गोलाकार आधार वाली एक छड़ी से बना होता है।

5) Light Pen

A light pen is a computer input device that looks like a pen. The tip of the light pen contains a light-sensitive detector that enables the user to point to or select objects on the display screen

6) Digitizer

Digitizer is a computer input device that has a flat surface and usually comes with a stylus.

7) Microphone

The microphone is a computer input device that is used to input the sound. It receives the sound vibrations and converts them into audio signals or sends to a recording medium

8) Magnetic Ink Character Recognition (MICR)

MICR computer input device is designed to read the text printed with magnetic ink.

MICR is a character recognition technology that makes use of special magnetized ink which is sensitive to magnetic fields

9) Optical Character Reader (OCR)

OCR computer input device is designed to convert the scanned images of handwritten, typed or printed text into digital text. It is widely used in offices and libraries to convert documents and books into electronic files.

10) Digital camera:

11) Paddle:

It is a simple input device that is widely used in games. It is a wheel that is held by hand and looks like a volume knob on a stereo that is used to increase or decrease the volume.

12) Steering wheel:

It is used as an input device in racing video games such as car racing games or in driving programs as virtual simulators to steer a vehicle.

13) Gesture recognition devices

These devices take human gestures as input. There are many such devices that respond to gestures.

15) Touchpad:

It is usually found in laptops as a substitute for the mouse. It allows you to move or control the cursor on the screen using your finger.

16) Remote:

18) VR:

How to Join Class

The screenshot shows the YouTube channel page for 'Filler Form', which has 155K subscribers. A red 'SUBSCRIBE' button is highlighted with a blue box. The channel's navigation menu includes HOME, VIDEOS, PLAYLISTS, COMMUNITY, and CHANNELS. Under the 'Uploads' section, three videos are listed:

- UGC/NET/CSIR/SET/Ph.d Current Affairs(21-March)**: A video about current affairs for UGC NET, CSIR, SET, and Ph.D. exams, premiering on 21 March at 09:00 AM. It includes a list of dates: (ए) 16 मार्च, (बी) 17 मार्च, (सी) 18 मार्च, (डी) 19 मार्च, and (ई) 20 मार्च. A 'PREMIERING NOW' badge is present.
- JRF का Amount कैसे मिलता है**: A video explaining how to get the JRF scholarship amount, including how long it takes to receive payment from the bank. It has 245 views and was uploaded 2 hours ago.
- UGC NET 2022 History दिल्ली सल्तनत**: A video about the history of UGC NET 2022, premiering on 21/03/2022 at 13:00. It features a 'PREMIERE' badge and a 'SET REMINDER' button.

Congratulations
