Environmental Issues

It is very important to keep the environment clean, because the Earth is our home. It is the place where we breath, eat, live, sleep, laugh... We keep polluting our environment and it is not only bad for us, but for all the living creatures on Earth.

Environmental Issues

I'm very upset to see how human beings are destroying the Earth and not caring about it. It is not only harmful for us, but all the living creatures and I think this is very well reflected in the poster. It shows pictures about the current environmental issue and some facts letting the viewer get a general and informative idea of the issue and start taking responsibility.

Local , Regional and Global Issues

Local- Local Area

Eg- lack of clean water, waste management

Regional Issue- Regional Issue

Eg- river, poor air etc

Global Issue- Have Global Issue

Eg- Climate , ocean etc

AIR POLLUTION – THE SILENT KILLER

Considering the adverse effect of air pollution, it is necessary to take some steps to reduce its effects:

Air Pollution
**World's
Largest Killer**
responsible for
thousands of deaths
worldwide every
year.

Stroke

Heart
disease

Lung Cancer and
Both chronic & acute
Respiratory diseases
Including asthma
